

TECHNICAL DATA

HT 62

Hot Tank Cleaner

Product Description and Purpose

HT 62 is an alkaline rust stripper for removing rust and paint from iron and steel. **HT 62** is highly caustic with sequestrants for dissolving rust and accelerating stripping. It is safer to handle than acid compounds, no acid fumes, no need for lined soaker tanks, although **HT 62** may attack weak spots in the equipment. It has powerful penetration and immediate wetting action takes off oxidized metal and makes it clean.

Features/Benefits

Biodegradable
Clean Rinsing
Excellent Stability

General Usage Directions

In Steel Tanks: Use 1 to 3 pounds per gallon at a boil for rust stripping

Paint Stripping: Use 1 to 2 pounds per gallon of water at a boil. The time and concentration of rust/paint stripping will depend on the rust and paint.

Physical Properties

Form	Solid
Color	Tan
Odor	Mild, caustic
pH	13-14

Caution

Keep out of reach of children. Keep container tightly closed when not in use. Protect from freezing. For industrial use only. Read Safety Data Sheets for more information.
