

SMOKEHOUSE CLEANER LIQUID

9750

TECHNICAL DATA

**HEAVY DUTY CLEANER SPECIFICALLY
FOR THE FOOD AND BEVERAGE INDUSTRIES**

Product Description and Purpose

SMOKEHOUSE CLEANER LIQUID is a concentrated, light brown, heavy-duty alkaline cleaning compound designed to remove burned-on carbons and other baked-on food soils. It is effective in removing oils, greases, and proteinacious deposits commonly found throughout the food industry.

Features/Benefits

Concentrated

Economical to Use

Surfaces Applicable

SMOKEHOUSE CLEANER LIQUID designed to remove burned-on carbons and other baked-on food soils.

General Usage Directions

When the product is applied as a total liquid cleaning solution, normal use concentrations are 2 to 3 fluid ounces per gallon. Approximate use concentration when applied as foam, is 4 to 6 fluid ounces per gallon. When the product is applied as a total liquid cleaning solution, normal use concentrations are 2 to 3 fluid ounces per gallon. A boil-out operation such as deep fat frying equipment will require concentrations of approximately 4 to 6 fluid ounces per gallon, depending on the degree of soil present. When **SMOKEHOUSE CLEANER LIQUID** is used in soaker tanks for immersion cleaning of parts and equipment, concentrations will generally range between 4 to 6 ounces per gallon at a temperature of 180 degrees F. to boiling.

SMOKEHOUSE CLEANER LIQUID

9750

TECHNICAL DATA

Where Used

SMOKEHOUSE CLEANER LIQUID is authorized by the USDA for use in Federally inspected meat and poultry processing plants.

Physical Properties

Emulsification	Rapid
Color	Dark Brown
Specific Gravity	1.35-1.40
pH (1% Solution)	12.5
Wetting Ability	Excellent
Foaming	High
Rinsing	Complete
Stability	Excellent
Metal Safety	Safe on Stainless Steel Iron, and Nickel
Phosphates	None

Caution

DANGER!! Contains Caustic Alkali. **DO NOT TAKE INTERNALLY.** When handling, wear goggles or face shield. **DO NOT GET IN EYES, ON SKIN, OR IN CLOTHING.** In case of skin contact, flush with plenty of water; for eyes, flush with plenty of water for at least 15 minutes and **GET MEDICAL ATTENTION!** Keep out of reach of children. For industrial use only. Read Material Safety Data Sheets for more information.
