## BRAKE CLEANER

### Product Description and Purpose

A liquid solvent-cleaner formulated to remove oil, grease, brake fluid and other soils from brake parts. Contains no chlorinated hydrocarbons. Aids in meeting the OSHA standard for removing particulate asbestos. Evaporates quickly, leaves no residue. Can be used on any type of brake equipment, assembled or disassembled: Brake drums, wheel cylinders, master cylinders, disc pads, linings, return springs, power and vacuum assisted components, and all other metal brake parts. Use on autos, trucks, trailers, campers, mobile homes and motorcycles.

### Features/Benefits

**Brake Cleaner** gives more complete removal of most soils than straight chlorinated solvents, with the added advantage of lower toxicity and greater stability. It leaves no oily residue.

### Acceptability

**Brake Cleaner** meets specification MIL-S-18718 (1) (Aer) and exceeds its requirements by leaving a much more oil-free surface than is required. Many compounds in this classification leave considerable oil on the surface, which can interfere with subsequent operations or use. A dry surface is particularly necessary when data sheet and pollution information available upon request through data sheet and pollution information available upon request through the Regulatory-Environmental Compliance Service Department.

### General Usage Directions

Use **Brake Cleaner** as shipped. Apply as a wipe-on, by soaking or brush, rinse if desired.

# TECHNICAL DATA

## Where Used

**Brake Cleaner** is safe on metals, insulation, rubber, and plastic when wiped, brushed, or sprayed on, and for normal short-time immersion. (Soaking may affect some elastomers, plastics, paints or insulations; so test first.)

## Physical Properties

Appearance	Colorless liquid
Density	8.0 lbs. per gallon
Foaming	None
Odor	Slight
Phosphates	None
Stability	Excellent

## Caution

Do not take internally. Avoid contact with skin or eyes. In case of contact with skin, flush with water. In case of accidental eye contact, flush with water for at least 15 minutes and obtain medical attention. Keep out of reach of children. For industrial use only. Read Material Safety Data Sheets for more information.
