

TECHNICAL DATA

CK Battery Kare Battery Terminal Cleaner

Product Description and Purpose

CK Battery Kare removes corrosion from all battery parts and quickly identifies leaks. Color indicator shows red in presence of acid. When neutralizing, color indicator shows yellow. Regular use increases battery performance and life expectancy. Neutralizes acid and dissolves corrosion from terminal cables, hold-downs, and boxes. For use on automobile, marine, aircraft and industrial applications.

Features/Benefits

- Increases Battery Life
- Improves Battery Performance
- Minimizes Current Leakages
- Color Indicator shows red in the presence of acid
- Color Indicator shows yellow when neutralizing
- Leaves a Protective Film

General Usage Directions

1. Shake well before using.
2. Spray **CK Battery Kare** on cables, clamps and all battery surfaces.
3. After several minutes, flush with water.
4. Severe corrosion may require a repeat application and/or agitation with brush.

Physical Properties

Form	Aerosol
Color	Clear
Odor	Characteristic
pH	8.75

Caution

Keep out of reach of children. Keep container tightly closed when not in use. Protect from freezing. For industrial use only. Read Safety Data Sheets for more information.
