

TECHNICAL DATA

CK Kool Tool Cutting and Taping Compound

Product Description and Purpose

CK Kool Tool is a foaming oil that clings to all cutting tools, preventing waste and over spraying. It combines synthetic and natural lubricants for maximum high pressure lubrication which will increase the cutting rate without overheating. **CK Kool Tool** prevents chip welding and eliminates dangerous and costly tool-breakage. Blended for high load tolerance and to leave a temporary rust inhibitive coating. Works well in: Boring, cutting, tapping, grinding, machining, punching, sawing and more.

Features/Benefits

- Thick foam that clings to vertical surfaces
- Combines synthetic and natural lubricants for maximum high pressure lubrication
- Increase the cutting rate without overheating
- High performance cooling action allows for higher cutting speeds for increased productivity

General Usage Directions

1. Shake **CK Kool Tool** can well before using.
2. Spray moderate amount of foam on cutting tool.
3. Re-spray often, to keep tools cool and well lubricated.

Physical Properties

Form	Aerosol
Color	Clear
Odor	Characteristic

Caution

Keep out of reach of children. Keep container tightly closed when not in use. Protect from freezing. For industrial use only. Read Safety Data Sheets for more information.
