

TECHNICAL DATA

CK Max Bond Super Adhesive

Product Description and Purpose

CK Max Bond is specifically formulated for use on uneven or porous surfaces. Can be used on cloth, leather, cardboard, foam, fabrics, and most plastics. This product has high solids with a water-resistant bond. It is flexible, has quick tack, and has great temperature resistance. Always test in an inconspicuous area prior to use.

Features/Benefits

- Flexible, Quick Tack
- Heat Resistant
- Water Resistant
- Excellent on Uneven or Porous Surfaces

General Usage Directions

CK Max Bond works best at 70°F. Hold can 6 to 8 inches from surface to be covered. Apply an even coat, slightly overlapping on each pass to achieve complete coverage. Avoid adhesive build-up or puddles.

NOTE: After use, invert can and depress spray tip to clear valve and spray tip.
