

TECHNICAL DATA

CK Moly Lubricant Lubricant

Product Description and Purpose

CK Moly Lubricant is a lubricant that protects parts which are exposed to harmful or corrosive elements. Lubricates and penetrates to protect against friction and wear. It features a thick foam that clings to vertical surfaces. As foam breaks, product penetrates into wire ropes, links, and roller mechanisms. Provides resistance to wear. Extreme pressure capability. Will not break down under high temperatures. Forms a protective rust barrier.

Features/Benefits

- Contains "Moly"
- Thick Clinging Foam
- Penetrates, Lubricates
- Forms Protective Rust Barrier

General Usage Directions

1. Shake **CK Moly Lubricant** can vigorously for one minute after mixing ball begins to rattle.
