

TECHNICAL DATA

BLAST OFF TRAFFIC FILM REMOVER

Product Description and Purpose

BLAST OFF is designed to remove most exhaust deposits, road film and bug residue from painted vehicle surfaces without time consuming brushing. **BLAST OFF** is also effective for pressure cleaning many surfaces such as aluminum siding, painted wood and painted metal.

Features/Benefits

BLAST OFF works with hot or cold water rinses easily and leaves no unsightly soap film. Formulated to help prolong useful life of pressure washing equipment.

Surfaces Applicable

Painted vehicle surfaces.

General Usage Directions

Spray product onto surface to clean at 1:25 dilution for heavy soil and removal of traffic film without brushing. **BLAST OFF** may be used up to 1:100 dilution for light cleaning or use with brushing.

Apply diluted **BLAST OFF** to surfaces with pressure washer allowing time for penetration of soil. All surfaces should then be thoroughly rinsed with clean water.

For most painted surfaces, use **BLAST OFF** with hot or cold water and at least 500 PSI pressure. For best results, hold pressure washer nozzle about 6" from vehicle surface.

For best results on vertical surface, apply **BLAST OFF** from bottom up. Pressure rinse from bottom up also. Final rinse from top down.

Test diluted product on surface to be cleaned, in as inconspicuous area, when using for the first time.
